

AMINE ADDED

Information Systems Graduate · Web & AI

Bizerte, Tunisia · +216 99 380 476 · amineadded3@gmail.com · github.com/AmineAdded

PROFILE

Graduate with an Applied Bachelor's degree in Information Systems Development from ISET Bizerte, I am currently seeking an opportunity to join an engineering program and deepen my expertise in software engineering and artificial intelligence. Passionate about web, mobile, and AI development, I am fully committed to both technical and associative projects. I constantly strive to take on new challenges and improve my skills, both in team settings and independently.

TECHNICAL SKILLS

Languages	C, Java, C#, PHP, Python, JavaScript, TypeScript, Kotlin, Dart (Flutter), HTML, CSS
Frameworks & Libs	Angular, Vue.js, React, Blazor, ASP.NET, Spring Boot, Laravel, Flask, Bootstrap, Tailwind CSS
Mobile Development	Flutter (Dart), Android with Kotlin
Databases	PostgreSQL, SQL Server, MySQL, MongoDB, Redis, Firebase
DevOps & Tools	Git & GitHub, Docker, Linux, Postman, Power Automate, Keycloak, Kaggle, VS Code, IntelliJ IDEA
UI/UX & Design	Figma, Adobe XD, Canva
Soft Skills	Curious, Rigorous, Methodical, Team Spirit, Problem Solving

EDUCATION

Applied Bachelor's Degree in Information Systems Development

09/2023 – 06/2026

Institut Supérieur des Etudes Technologiques de Bizerte (ISET Bizerte)

Specialization in software engineering, databases, web technologies, and AI fundamentals.

PROFESSIONAL EXPERIENCE

Final Year Internship – Full Stack Development

02/02/2026 – 23/05/2026

AsteelFlash Tunisia, Bizerte

Design and development of AssetFlow, an intelligent web application for IT asset management.

- Facial recognition authentication (MediaPipe FaceLandmarker, JWT).
- OCR analysis of supplier invoices via Mistral OCR + Llama 4 (Groq), with Redis cache and Circuit Breaker.
- Conversational AI agent (Agentic AI) reasoning over asset data.
- Proactive stock-out notifications on Microsoft Teams via Power Automate.
- Real-time messaging with SignalR and price web scraping (BeautifulSoup, MyTek API).
- Backend in Clean Architecture (ASP.NET), Blazor WebAssembly frontend, PostgreSQL database.

Technologies: ASP.NET Core, Blazor, Clean Architecture, PostgreSQL, Redis, SignalR, Keycloak, Power Automate, Python

Web Development Internship (Advanced)

01/2025 – 02/2025

EleOneTech, Bizerte

Design and development of EleOneClick, a web application for employee management and versatility tracking.

- Employee management and versatility tracking.
- Modern and intuitive interface with decoupled frontend-backend architecture.

Technologies: Vue.js 3, Vuetify 3, Laravel 9

Web Development Internship (Introduction)

01/2024 – 02/2024

EleOneTech, Bizerte

Discovery and familiarization with the professional work environment.

ACADEMIC & PERSONAL PROJECTS

AssetFlow – Intelligent IT Asset Management

02/2026 – 05/2026

Full-stack web application developed during the final year internship at AsteelFlash Tunisia.

- Facial recognition authentication (MediaPipe, JWT, liveness detection).
- Intelligent invoice OCR analysis (Mistral OCR to Llama 4 via Groq, Redis, Circuit Breaker).
- Conversational AI agent and memory graph for decision-making.
- Power Automate workflow for stock-out alerts on Microsoft Teams.
- Real-time messaging (SignalR) and full system audit log.

Technologies: ASP.NET Core, Blazor WebAssembly, PostgreSQL, Redis, SignalR, Keycloak, Power Automate, Python, Mistral, Groq

HealthyfiTN – Digital Health Solution

10/2025 – 12/2025

- Mobile (Kotlin) and web (Angular) platforms with Keycloak-secured Spring Boot microservices.
- Biometric monitoring via smartwatch & HealthConnect with AI anomaly detection.
- Meal image analysis for nutritional estimation and real-time 3D health avatar.
- Intelligent Gemini chatbot reading the patient's daily health data.

Technologies: Angular, Kotlin, Spring Boot, Microservices, Keycloak, Python, Flask

Smart-Learn – AI-Powered Educational Platform

11/2025 – 12/2025

- Interactive quizzes, curated YouTube content and AI-based student level assessments.
- Adaptive learning paths based on individual strengths and weaknesses.
- Gamified progress tracking with XP points, badges, and achievement levels.

Technologies: Flutter, Spring Boot, MySQL, Gemini API

BusGameSimulator – Urban Transport Simulation

02/2024 – 04/2024

- Graphical simulation of urban public transport (buses, zones, lines).
- SDL1.2 graphical interface for realistic visualization and efficiency evaluation.

Technologies: C, SDL1.2

ASSOCIATIVE EXPERIENCE

Vice-President – IEEE ISET Bizerte Student Branch

09/2024 – 01/2025

Coordination of technical activities, events and IEEE competitions. Supervision of department heads and contribution to strategic decisions.

CERTIFICATIONS

Bus Game Simulator Project Certificate

Oct 2025

Issued by the Head of the Information Technology Department – ISET Bizerte.

Microsoft Certified: Azure AI Fundamentals

2023

Fundamentals of AI on Azure – Microsoft.
