PROFILE

Third-year student in Applied Bachelor's Degree in Information Systems Development at ISET Bizerte. Passionate about programming, web development, and artificial intelligence. Curious and rigorous, I fully invest myself in technical and associative projects. I constantly seek to take on new challenges and improve my skills, both in teams and independently. Currently seeking an **End-of-Studies Project Internship (PFE)** to complete my training and apply my technical, analytical, and interpersonal skills in a professional environment.

TECHNICAL SKILLS

Programming Languages

C, Java, PHP, Python, JavaScript, TypeScript, Kotlin, Dart (Flutter), JSON, HTML, CSS

Frameworks & Libraries

Angular, Vue.js, Laravel, Spring Boot, Blade, Thymeleaf, JavaFX, Bootstrap, Tailwind CSS

Mobile Development

Flutter (Dart), basic knowledge of Android with Kotlin

Databases

MongoDB, MySQL, SQL (relational databases)

UI/UX & Design

Figma, Adobe XD

Tools & Platforms

VS Code, IntelliJ IDEA, Git & GitHub, Postman, Qt Designer, Talend, LaTeX

Personal Skills

Curious, Rigorous, Enthusiastic, Methodical, Team Spirit

Problem Solving & Development

Code Forces, Software Development

EDUCATION

10/2023 – Present **Applied Bachelor's Degree in Information Systems Development** Higher Institute of Technological Studies of Bizerte
Specialization in software engineering, databases, web technologies, and AI fundamentals.

PROFESSIONAL EXPERIENCE

01/2025 – 02/2025 **Web Development Internship (Advanced)** EleOneTech, Bizerte
Design and development of a web application, EleOneClick, for employee management and polyvalence matrix within EleOneTech company.

- Employee management and polyvalence tracking.
- Modern and intuitive interface.
- Modern frontend-backend architecture.

Technologies: Vue.js 3, Vuetify 3 (frontend), Laravel 9 (backend)

01/2024 – 02/2024 **Web Development Internship (Introduction)** EleOneTech, Bizerte
Observe and familiarize with professional work environment.

ACADEMIC AND PERSONAL PROJECTS

10/2025 – 12/2025 **HealthyfiTN – Digital Health Solution**
Comprehensive digital health solution with mobile and web platforms.

- Mobile application developed with Kotlin and web platform with Angular.
- Online medical appointment booking system.
- Continuous health monitoring for smartwatch users.
- AI model for meal image analysis (nutritional value estimation).
- 3D avatar reflecting real-time health status.
- Intelligent chatbot powered by Gemini for health advice and support.
- Health goal tracking with visual progress charts.

Technologies: Angular, Spring Boot, Microservices, Scrum, Keycloak, Kotlin, Python, Flask

- 11/2025 – 12/2025 **Smart-Learn – AI-Powered Educational Platform**
Educational platform that revolutionizes learning by combining interactive quizzes, curated YouTube video content, and intelligent personalization.
- AI-driven assessments that automatically evaluate student levels.
 - Adaptive learning pathways personalized to individual strengths and weaknesses.
 - Gamified progress tracking with XP points, badges, and achievement levels.
- Technologies:** Flutter, Spring Boot, MySQL, Gemini API
GitHub: AmineAdded/Smart-Learn
- 06/2025 **SITE Conference – Event Management Web Platform**
Web platform developed with TypeScript and Laravel for the SITE Conference event.
- Overview of previous editions and event highlights.
 - Online registration and payment system.
 - Email notifications and digital badge distribution.
 - Certificate generation after the event.
- Technologies:** TypeScript, Laravel, MySQL
- 02/2025 – 05/2025 **ChbebiWin – Self-Discovery Web Platform**
Web application developed with Laravel and Vue.js, specifically designed for young Tunisians to help them better understand themselves through a variety of personality tests.
- Interactive and varied personality tests.
 - Exploration of Tunisian culture, traditions, and religion.
 - Promotion of deeper awareness and appreciation of national identity.
 - Combines self-discovery with cultural knowledge in an engaging and modern digital experience.
- Technologies:** Laravel, MySQL, Vue.js
- 02/2024 – 04/2025 **BusGameSimulator – Urban Transport Simulation System**
C-based simulation system designed to model urban public transportation in graphical mode, using the SDL1.2 library.
- Simulates the operation of buses, zones, and transport lines in a city.
 - Allows users to evaluate the efficiency and value of various transport activities.
 - Graphical interface for realistic visualization.
- Technologies:** C, SDL1.2
Demo Video: Watch Demo
- 11/2024 **LawReserve – Legal Connection Platform**
Platform connecting clients with professional lawyers, offering easy navigation of legal services, appointment booking, and consultation management.
- Authentication system with Firebase.
 - Appointment and consultation management.
 - Modern and intuitive user interface.
- Technologies:** Vue.js, PHP, Firebase, MySQL
- 10/2024 – 11/2024 **Library-Project – Library Management System**
Library management system developed in PHP to manage members, books, loans, and administrators.
- Simplifies library operations with loan tracking.
 - Inventory management and efficient user access control.
- Technologies:** PHP, MySQL, Phtml

ASSOCIATIVE EXPERIENCE

- 09/2024 – 01/2025 **Vice-President** **IEEE ISET Bizerte Student Branch**
Assist the president in coordinating technical activities, events, and IEEE competitions. Supervise and support managers to ensure smooth project execution. Replace the president in case of absence and contribute to strategic decisions.

CERTIFICATIONS

- Oct 2025 **Bus Game Simulator Project Attestation** **Issued by Head of the Information Technology Department**
Associated with ISET Bizerte.
